Laura Loomer Uncovers Taxpayer-Funded Conflict of Interest Involving Obama-Appointed Judge and His Daughter Over Deportation of Criminal Aliens

Chief Judge Boasberg, of the United States District Court for the District of Columbia, blocked the deportation of Tren de Aragua gang member's without disclosing the fact that his daughter works for a 501c3 called "Partners For Justice" that gives criminal illegal aliens and gang members legal advice.

It seems Judge Boasberg is responsible for all kinds of deep state rulings. In case you are wondering why Supreme Court Chief Justice John Roberts is setting his own credibility on fire to defend Judge Boasberg from impeachment investigations, it is because it is rumored Roberts personally placed Boasberg on the FISA court that rubber-stamped illegal spy warrants against Donald Trump. He was also the Judge selected to oversee the reformed needed at the FBI regarding how they obtain FISA warrants. Judge Boasberg also presided over the secret Foreign Surveillance Court (FISC).

For those that never knew or have forgotten, Judge Boasberg was the one that ruled the State Department had done all it was legally required to do to retrieve emails from Hillary Clinton's email servers. Judge Boasberg

also ruled that the photographs and video of Osama Bin Laden's death would remain classified.

CONFLICT OF INTEREST EXPOSED

The Judge has a daughter named Katherine Boasberg, who works for a 501(c)(3) organization called Partners for Justice as a "capacity building associate". In her position, she helps coordinate and administer grant activities, ensuring compliance, and supporting the delivery of capacity-building programs to strengthen nonprofit infrastructure. Katherine Boasberg also has pronouns in her bio. She goes by SHE/HER, proving her affiliation with the Left.

The Judge's daughter focuses on criminal defense and advocacy as an employee of Partners For Justice. Partners for Justice is an organization that derives 76% of its funding from GOVERNMENT GRANTS! It is alleged that the Judges decision in the immigration case was revenge was the halt of federal funding for his daughter's employer, Partners for Justice.

Partners For Justice describes itself as: "Supporting those in need, transforming the system. Partners for Justice is transforming public defenders into a robust network of dynamic, people-centered service centers to reduce incarceration, increase equity, and positively impact the lives of those harmed by cycles of incarceration, poor health, and poverty. Since 2018 they have connected thousands of people with stabilizing services and eliminated an estimated 5,000 years of jail and prison time, compared to maximum exposure." Partners for Justice strongly opposes mass deportations and legislation targeting members of criminal gangs, and has

been a vocal critic of the Laken Riley Act.

Such a close familial relationship brings into question how the judge may render decisions and how his decisions may impact the professional career of his daughter, who's employment is based upon defending criminal illegal aliens, gang members, and opposing mass deportations.

It seems that Judge Boasberg has a clear conflict of interest & is obligated to recuse himself from this case, as outlined in the Code of Conduct for United States Judges, which specifies the circumstances under which a judge must disqualify themselves from a proceeding. The disqualification clause states the following: "A judge shall disqualify himself or herself in a proceeding in which the judge's impartiality might reasonably be questioned, including but not limited to instances in which: The judge or the judge's spouse, or a person related to either within the third degree of relationship, or the spouse of such a person is: Known by the judge to have an interest that could be substantially affected by the outcome of the proceeding."

The mass deportation of criminal illegal aliens and gang members could lead to a substantial reduction in urban crime rates, potentially decreasing the caseload for Partners for Justice, while also reducing gang-related incidents that may, in turn, diminish funding opportunities for Partners For Justice from U.S. government grants and private foundations. Judge Boasberg MUST RECUSE HIMSELF! Given his daughter's employment at a group that advocates for criminal illegal Aliens & is funded by US Government grants, Judge Boasberg should not be granted any sensitive information about deportation flights.

On Monday, March 17, 2025, the DOJ asked a federal appeals court to intervene and take Boasberg off the case, saying he was undermining national security. 🇺🇸
